ACM

TO WHOM IT MAY CONCERN

I hereby certify that Sabrina I Morales has been invited and is expected to be a member of the Venezuelan team that will represent our country at the 61st International Mathematical Olympiad (<https://imo2020.ru/>) to be held in Saint-Petersburg Russia, July 8 – 18 2020 and the XXXV Ibero-American Mathematical Olympiad to be held in Lima, Peru, September 2020. Please note that these are some of the most prestigious mathematical contests for pre-collegiate students in the world.

The invitation is in recognition of Sabrina's extraordinary talent and performance. Sabrina won a gold medal in the latest national mathematical contest (only perfect score in the advanced level), the national prize for the best solution of a geometry problem (Dario Duran Award) and an honorable mention in the most recent Ibero-American Mathematical Competition held in Mexico in (2019).

Please do not hesitate to contact me for additional information. Caracas, February 12, 2020.

Sincerely yours,

Prof. Rafael Sánchez. PhD.
President ACM
Full Professor of Mathematics
